With PrecisionCore printhead technology and UltraChrome XD2 ink*2 to bring about fast printing speeds, enjoy a seamless work process and top-class accuracy in every print. Showcase your ideas and plans in a big way right down to the finest detail.

GO BIG on the details and find out more from our printing experts.

IT'S IN THE DETAILS.

PRECISIONCORE PRINTHEAD

Detailed Accuracy
PrecisionCore printhead technology produces impressive accuracy and sharpness at outstanding speeds.

Reliable Efficiency
In-built functions such as Continuous Ink Supply System*3 and seamless scan to print ensure high productivity.

Small Footprint
Minimally designed to fit effortlessly into tight working spaces.

*1 SC-T3130X stand is optional and is not included in the initial packaging. *2 For SC-T3130/T3130M/T5130/T5130M only. *3 For SC-T3130X only.

LARGE FORMAT PRINTERS

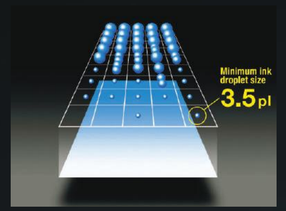
SURECOLOR™ SC-T3130/T3130N/T3130X/T3130M/T5130/T5130M

For accuracy right down to the finest details, the Epson SureColor T-series printers fulfils all your business needs. Using core technologies such as PrecisionCore printheads and UltraChrome XD2 ink, prints are delivered at an outstanding speed with impressive accuracy and clarity. Let your ideas impress your audience with prints that are consistently fast, precise and reliable.

PrecisionCore Printhead Technology

PRECISIONCORE PRINTHEAD

Equipped with the next-generation PrecisionCore printhead technology as well as Variable Size Dot Technology, piezo elements are used to mechanically eject ink from the SureColor T-series' PrecisionCore Micro TFP printhead, allow the ink droplets to be controlled to the finesse of 3.5 picolitres, producing incredibly precise line detail, sharp text and photographic-quality graphics. T-series' industry-leading output quality and accuracy will provide a reliable and productive long-term operation.



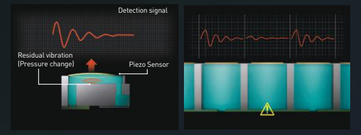
Impressive Print Speeds

The PrecisionCore printhead technology enables remarkable print speeds that will print A1 printouts in 31 seconds*.

*Print speed is based on the SC-T5130.

Nozzle Verification Technology

Print without interruptions with the advanced built-in Nozzle Verification Technology (NVT). This technology monitors nozzle health and adjusts print quality automatically without interruption, even during printing.



The piezo element (sensor) detects the residual vibration (pressure change) in the ink chamber and diagnoses the nozzle condition.

If a clogged nozzle is indicated by an irregular vibration pattern, the printer automatically adjusts the print quality.

Compact, User-friendly Design

Control At Your Fingertips

A 4.3 inch touch panel on the T-series gives you the convenience of an easy setup and a PC-less operation that just makes things extra efficient.

Small Footprint

Sleek and minimally designed, the T-series is of a comfortable size that fits into tight work spaces effortlessly. At just 970 x 245 x 577mm without the stand, the SC-T3130X has one of the smallest footprint in its class.

Trusted Productivity

Ink Tank System

The SC-T3130X increases cost savings as it brings on a seamless workflow, eliminating the need for ink replacements that will delay print jobs. With an efficiently designed ink tank and system, ink refills during print jobs can be easily and effortlessly done, without compromising on efficiency.

Wireless Connectivity

The T-series is integrated with Wi-Fi and Wi-Fi Direct, making it convenient to print right from smart devices anywhere in the office. The Wi-Fi Direct function acts as an access point, allowing devices to connect directly to the printer without a router. Additionally, the T-series printers come equipped to allow direct wireless printing from any Apple devices through Apple AirPrint*, without the need for any additional drivers.

*Apple AirPrint is a trademark of Apple Inc.

Epson Cloud Solution PORT

Epson Cloud Solution PORT is a cloud-based solution for Epson end users. This software provides users with the status of the connected printer and alerts for troubleshooting if required. The Production Monitor allows users to visualise printer operational status, track usage and print job cost, conveniently from their PC or smart devices.

Seamless Scan To Print

Scan and enlarge your printouts in just four easy steps without needing to connect to a computer. Using compatible Epson scanners* for the SC-T3130/T3130N/T3130X/T5130, you can seamlessly scan and print directly from the T-series printers.

*Recommended scanners: WorkForce DS-530, DS-6500, DS-60000.
